LED Sign for Custom Professional Kiosk

Our LED signs are comprised of clear acrylic with three types of design application: Laser-cut laminate, Etched acrylic, and Printed acrylic. The design application will ultimately be determined by the complexity of the logo provided.

Laser-cut laminate

Best for simple designs with thicker linework in one or two colors.

Etched acrylic

Best for more complex logos with fine linework – can be mixed with laser-cut portions to increase visibility and add visual interest.

Printed acrylic

Best for multicolored logos and use with or without LEDs.

The strong, professional look of the custom LED backlit sign is enhanced when the sign is mounted to your Custom Professional Kiosk with 1.5” silver stand-offs. The look is completed with remote-controlled, color-changing LED lighting that creates a “halo” effect on your sign.

The LED kit is powered by a rechargeable cordless battery system with an 8-hour charge cycle. If you need to light up the station for longer than 8 hours, it can be plugged directly into an electrical outlet. The LED kit also comes with a remote operated controller which has multiple speed, brightness, and color settings.

LED Kit includes

- 8 Color options: Red, Orange, Yellow, Blue, Cyan, Purple, White Green
- Waterproof LED strips with multiple color options
- Sealed, 8 hour rechargeable battery w/ power supply
- Easy-to-use controller and remote

Available only on Custom Professional Kiosk
Sign sizing: 16”x24”

Don’t want it backlit? Ask us for pricing on a sign without LEDs.
